## Summary

I have got experience developing conversion-optimized landing pages, helping companies increase their conversion rates and generate more leads.

And as a specialist in e-commerce systems, I have the knowledge necessary to create virtual stores that are easy to use and manage, and that offer a safe and intuitive online shopping experience.

Professionally, I work as a Front-end using Vue 3, creating reusable and responsive components, reducing complexity and improving team performance by better understanding the implemented components.

Communication and management skills as I made a career transition from areas that always required a lot of communication and time management, as today they help me a lot in the IT area for good communication with teams and clients.

## Experience

### Frontend Developer

BIYÕ

Nov 2022 - Present (1 year 1 month)

Upon arriving as a FrontEnd developer, I was able to develop the new design of the vegan cosmetics E-commerce. It is through this design system that was given to me, I used technologies such as vue.js, making the components more reusable and intuitive for future maintenance, as well as using my skills with CSS and design to make layouts more pleasant for the user with interactions and usability. based on UX design.

### Scaffolding assembler

Jun 2020 - Nov 2022 (2 years 6 months)

Beginning of my professional career, where I got to know different sectors of the civil and industrial construction areas, traveled to different cities, and had the opportunity to improve my social communication and teamwork.

## Education

### Digital House Brasil

Associate's degree, Web developer FullStack

May 2022 - Feb 2025

This bootcamp of 2 years of FullStack development in the technology area and 9 months of specialization provided me with diverse knowledge in the area of web development, as well as digital products, communication and entrepreneurship, data analysis and user experiences.

I created several projects and built different business ideas to be implemented in different areas of the Tech world.

### **QI Escolas e Faculdades**
